How to Enroll in Courses

There are a variety of ways to explore the over 800 Summer Session courses to choose from. To find a course that is perfect for you, you can either search by the department, search by the session, or you can search by the course category. Once you have found a course you would like to take, click the title to learn more about the course, including the name of the instructor, when the class is offered, the number of units, and a brief description of the course.

When you have found a course you would like to enroll in, do not hit the “Enroll” button found on the course webpage, as this option is only for currently enrolled UCI students. International students are not able to enroll online. Instead, you will enroll for each of your courses by marking the appropriate information directly on the application form.

Please provide the following information in Section 2 of the application (all of which can be found on the course webpage):

- Course Name
- Start date
- Department and Course Number
- The 5-Digit Course Code
- Units
- Grading Options. For example, you can choose if you want to receive a Letter Grade, Pass/No Pass, or Audit (international students are unable to Audit a course since their visa requires that they obtain units while studying in the U.S.). In order to have course units transferred smoothly back to your university, please check with your home institution to see if there are any specific grade option requirements or policies that you need to be aware of.
- Course Fees. Course fees are determined by the number of units that students take. Multiply the number of units for each class by $309 to get your course fee total.

We make every effort possible to place you in your first choice. However, since courses fill quickly, we ask that you provide two alternative options on the application form.
